Onboarding Program

We offer professional onboarding to prepare your backup environment for production use, and to provide you with the confidence to manage backups and restores.

Do You Want to Get 100% Out of Your MSP360 Backups?

We help you configure your Managed Backup account according to your requirements and best practices:

▶ Setting up different backup and restore plans

▶ Customizing configuration deployment

▶ Troubleshooting issues and answering any questions you might have

What Will You Get?

The onboarding process can take up to 30 days but the duration depends on the complexity of setup. Together, we will make sure that you have an optimal setup of:

▶ Backup environment discussion and information gathering

▶ MSP360 Managed Backup web console initial configuration

▶ Cloud and local storage management

▶ Backup and restore plans overview and configuration
